

The Euphorbiaceae Study Group Bulletin

Theo Heynsdijke of the Netherlands Succulent Society has informed us that they have some back numbers of The Euphorbiaceae Study Group Bulletin for sale.

The Euphorbiaceae Study Group was the fore runner of our International Euphorbia Society and was formed By Daphne and Albert Pritchard in the late 1980s. There was a bulletin issued 3 times per year and was put together by Daphne and Albert and contained stuck in photographs to accompany the text. It must have been an enormous task for them.

The articles they contained were varied and of much interest, these bulletins are quite rare now and this a good opportunity to acquire some of them.

The available bulletins are listed below.
